This model is mostly suitable for average to large homes. Its patented carbon dust filtration system captures the fine black dust produced by the motor, thus eliminating deposits on surfaces surrounding the vacuum unit. This way, it ensures superior indoor air quality. This unit is also equipped with a washable Cyclofilter treated with Ultra-Fresh. Not only does it maintain superior indoor air quality by eliminating germs and allergens from indoor air, it's also environmentally friendly and economical.

Technical Data	GS 711
Airwatts	655
Decibel	68
Air Flow	204 MCH
Water Lift H_2O	3810 mm
Amps	8.4
Voltage	240 V
Turbines	3
Cleaning surface	745 m^2
Capacity	5 IMP gal / 22 L
Height	36" / 92 cm
Diameter	12" / 30 cm
Weight	28 lbs / 13 kg
Principle	Electrostatic bag
Filtration	Cyclofiltre™

GS711

WHY CYCLO VAC?

ROBUST

First quality steel protected by thermohardening paint.

POWERFUL

Constant power in spite of the volume of dust in the bag.

CARBON DUST FILTER

Captures that fine black dust produced by the motor.

QUIET

Acoustic foam and rubber components soundproof the unit.

HYGIENIC

Filter-bag electrostatically charged. Captures over 99.4% of dust particles.

NON-ALLERGENIC*

Permanent Filter treated with Ultra-Fresh* inhibits the growth of bacteria and fungi that may be associated with allergens.
